

K-Love for the last three years has been one of the best Christian Stations in the Chicago area. This would really be devastating if it would be displaced. It really in the best interest to keep them running. After 9-11, they were one of the few stations, that was encouraging with good reports and praying for our country.

I also was encouraged by the music and messages three years ago, when I lost 2 family members. It really gave me hope during a difficult time.
